We expect that delivery of the notes will be made to investors against payment therefor on or about the date set forth on the cover page of this prospectus supplement, which will be the sixth business day following the date of this prospectus supplement (such settlement being referred to as "T+6"). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in T+6, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes on the date of pricing or the next succeeding business day should consult their own advisors.
