HUBBELL INCORPORATED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 1997 (UNAUDITED)

3. On February 14, 1997, Hubbell acquired Fargo Manufacturing Company, Inc. ("Fargo") based in Poughkeepsie, New York. Fargo manufactures distribution and transmission line products primarily for the electric utility market. Each share of Fargo common stock was converted into a right to receive shares or fractions thereof of Hubbell's Class B Common Stock and accordingly 1,170,572 shares of Class B Common Stock were issued. The acquisition of Fargo has been recorded under the purchase method of accounting with a cost of \$42,800,000 net of cash acquired.

On January 2, 1996, the Company acquired the assets of the Anderson Electrical Connectors business ("Anderson"). Anderson manufactures electrical connectors and associated hardware and tools for the electric utility industry with manufacturing facilities in Alabama and Tennessee. On January 31, 1996, the Company acquired all the outstanding stock of Gleason Reel Corp. ("Gleason") based in Mayville, Wisconsin. Gleason manufactures electric cable management products (including cable and hose reels, protective steel and nylon cable tracks and cable festooning hardware) and a line of ergonomic tool support systems. The businesses were acquired for cash of \$31,365,000 and notes of \$18,635,000 that mature in one year and were recorded under the purchase method of accounting.

The costs of the acquired businesses has been allocated to assets acquired and liabilities assumed based on fair values with the residual amount assigned to goodwill, which is being amortized over forty years. The businesses have been included in the financial statements as of their respective acquisition date and had no material effect on the Company's financial position and reported earnings.

- 4. In the opinion of management, the information furnished in Part I-Financial Information on Form 10-Q reflects all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial statements for the periods indicated.
- 5. The results of operations for the three months ended March 31, 1997 and 1996 are not necessarily indicative of the results to be expected for the full year.

HUBBELL INCORPORATED MANAGEMENT'S DISCUSSION AND ANALYSIS OF

FINANCIAL CONDITION AND RESULTS OF OPERATIONS MARCH 31, 1997

FINANCIAL CONDITION

At March 31, 1997, the Company's financial position remained strong with working capital of \$355.3 million and a current ratio of 2.5 to 1. Total borrowings at March 31, 1997, were \$99.7 million, 12.3% of shareholders equity.

The net decline in cash and temporary cash investments of \$15.3 million for the three months ended March 31, 1997, reflects repayment of the short term notes issued as part of the acquisition of Gleason Reel in 1996 and quarterly dividend payment offset by cash provided from operating activities.

Net cash provided by operating activities reflects higher net income and continued emphasis on working capital management. Accounts receivable increased in line with higher sales. The decrease in current liabilities is due to a lower level of accounts payable primarily due to a lower rate of inventory purchases combined with payment of income taxes, insurance premiums and accrued interest.

The Company believes that currently available cash, borrowing facilities, and its ability to increase its credit lines if needed, combined with internally generated funds should be more than sufficient to fund capital expenditures as well as any increase in working capital that would be required to accommodate a higher level of business activity.

RESULTS OF OPERATIONS

Consolidated net sales increased by 7% with strong growth for the Pulse Communication, Canada and Mexico operations combined with the acquisition of Fargo in 1997 along with Anderson and Gleason which were acquired in January 1996. The acquisitions contributed one percentage point of the sales increase. Operating income increased 14% on higher sales and profitability improvement as the Company entered into the final year of its restructuring program with net operating margins rising to 15.4% from 14.4% in 1996.

Low Voltage segment sales increased 3% on higher shipments of generally all products within the segment along with the inclusion of Gleason which was acquired on January 31, 1996. Operating income increased in line with the higher sales volume.

High Voltage segment sales increased 7% on continued growth for surge arresters and insulators, higher shipments of power cable and the acquisition of Fargo on February 14, 1997. Operating income increased more than 20% on improved profitability and higher sales.

The Other industry segment sales increased 11% as all categories reported higher sales with particularly strong increases for wire management components, switch and outlet boxes and telecommunications products. Operating income increased 20% on higher sales volumes and improved operating efficiencies.

HUBBELL INCORPORATED MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS MARCH 31, 1997 (CONTINUED)

Sales through the Company's International units increased by 20% on continued growth of the Canadian and Mexican markets particularly for High Voltage products. Operating income from International units increased more than 20% on the higher sales volume and continued profitability improvement of the restructured Canadian and European operations.

The effective income tax rate for 1997 was 30% versus 29% in 1996. The increase in the effective tax rate reflects a higher portion of domestic source income which is due in part to the recently completed acquisition combined with changes in tax regulations regarding corporate owned life insurance and Puerto Rico investment income. Net income increased 15% and earnings per share increased 13%, respectively. Earnings per share includes the impact of the additional shares issued for the Fargo acquisition.

The Company's restructuring program is proceeding according to management's plan. At March 31, 1997, the restructuring accrual balance was \$6,656,000. Through March 31, 1997, cumulative costs charged to the restructuring accrual were \$43,344,000 as follows (in thousands):

| | Personnel | Plant & Equipme | nt Costs | |
|------------|-----------|-----------------|----------|----------|
| | Costs | Relocation | Disposal | Total |
| | | | | |
| 1993 | \$ 4,456 | \$ 2,794 | \$ | \$ 7,250 |
| 1994 | 7,550 | 2,036 | 5,225 | 14,811 |
| 1995 | 3,017 | 5,048 | 1,461 | 9,526 |
| 1996 | 2,223 | 6,642 | 814 | 9,679 |
| 1997 Y-T-D | 539 | 1,185 | 354 | 2,078 |
| | | | | |
| Cumulative | \$17,785 | \$17,705 | \$7,854 | \$43,344 |
| | ======= | ====== | ====== | ======= |

Personnel costs include non-cash charges for early retirement programs which have been reclassified to the Company's pension liability totaling \$6,203,000 since inception of the restructuring program.
