Notes to Condensed Consolidated Financial Statements (unaudited)

NOTE 1 Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Hubbell Incorporated ("Hubbell", the "Company", "registrant", "we", "our" or "us", which references shall include its divisions and subsidiaries) have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("U.S.") for complete financial statements. In the opinion of management, all adjustments consisting only of normal recurring adjustments considered necessary for a fair statement of the results of the periods presented have been included. Operating results for the nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017.

The balance sheet at December 31, 2016 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the U.S. for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Hubbell Incorporated Annual Report on Form 10-K for the year ended December 31, 2016.

Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board ("FASB") issued an Accounting Standards Update (ASU 2017-07) on the presentation of net periodic pension cost and net periodic post-retirement benefit cost. The new guidance requires the service cost component of net periodic pension and post-retirement benefit costs to be reported in the same income statement line item as other employee compensation costs, and the other non-service components to be reported outside of operating income. This new guidance is effective for fiscal years beginning after December 15, 2017 and must be applied on a retrospective basis. Upon adoption, the Company expects 2016 Operating income to increase by \$12.0 million and 2017 Operating income to increase by an estimated \$15.0 million, due to the removal of the non-service components of net periodic pension and post-retirement benefit costs. The Company expects a corresponding increase to Other expense, net, resulting in zero impact to net income in both periods.

In August 2016, the FASB issued an Accounting Standards Update (ASU 2016-15) to provide additional guidance and reduce diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The Company adopted the standard during the third quarter of 2017, and the comparable period within the Condensed Consolidated Statements of Cash Flows has been recast to reflect adoption. The adoption did not have a material impact on the Company's financial statements.

In March 2016, the FASB issued an Accounting Standards Update (ASU 2016-09) relating to the accounting for share-based payments. The new guidance requires all income tax effects of share-based awards to be recognized in the income statement when the awards vest or are settled, and allows companies an additional election in the method to estimate forfeitures of share-based payments. The new guidance also requires excess tax benefits to be classified as an operating activity in the statement of cash flows, and cash paid to a tax authority when shares are withheld to satisfy the employer's statutory income tax withholdings be classified as a financing activity. The Company adopted the standard on January 1, 2017. The Company elected to adopt all provisions impacting the Condensed Consolidated Statements of Cash Flows retrospectively; as such, the comparable period within the Condensed Consolidated Statements of Cash Flows has been recast to reflect the adoption. The income statement provisions of the new guidance have been adopted prospectively. There is no change to the Company's accounting policy with respect to estimation of forfeitures. The adoption did not have a material impact on the Company's financial statements.

In February 2016, the FASB issued an Accounting Standards Update (ASU 2016-02) related to the accounting and financial statement presentation for leases. This new guidance will require a lessee to recognize a right-to-use asset and a lease liability for both financing and operating leases, with a policy election permitting an exception to this guidance for leases with a term of twelve months or less. For financing leases, the lessee will recognize interest expense and amortization of the right-of-use asset, and for operating leases, the lessee will recognize a straight-line lease expense. This guidance is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The new standard must be adopted using a modified retrospective transition at the beginning of the earliest comparative period presented. The Company expects to recognize less than \$100 million of right-of-use assets and corresponding lease liabilities on the balance sheet upon adoption. The Company does not expect the adoption will have a material impact to the Statement of Income or Cash Flows.

In May 2014, the FASB issued an Accounting Standards Update (ASU 2014-09) related to new revenue recognition guidance that supersedes the existing revenue recognition guidance and most industry-specific guidance applicable to revenue recognition. According to the new guidance, an entity will apply a principles-based five step model to recognize revenue upon the transfer of promised goods or services to customers and in an amount that reflects the consideration for which the entity expects to be entitled in exchange for those goods or services. Subsequently, the FASB has issued amendments to certain aspects of the guidance including the effective date. The Company expects to adopt the guidance in the first quarter of 2018 using the modified-retrospective method.

The Company has a project team that is currently reviewing contract terms and assessing the impact of adopting the standard, including impacts to the Company's processes, controls and financial statement disclosures. The implementation team reports the progress and findings of its review to Management on a periodic basis. Based on the reviews and assessments performed to date, the Company expects the pattern of revenue recognition for the vast majority of its businesses to be unchanged, and that upon adoption revenue will generally continue to be recognized at a single point in time when control is transferred to the customer. The Company anticipates impacts to the financial statements primarily related to balance sheet classification, including of amounts associated with sales returns reserves. In the fourth quarter of 2017, the Company expects to continue to evaluate and update controls and policies affected by the new standard as necessary and to identify and gather the data necessary for new disclosure requirements. Additional updates will be provided in future filings, as appropriate.

NOTE 2 Business Acquisitions

In the first quarter of 2017, the Company completed two acquisitions for \$9.5 million, net of cash received, resulting in the recognition of intangible assets of \$3.4 million and goodwill of \$4.5 million. The \$3.4 million of intangible assets consists primarily of customer relationships and trade names that will be amortized over a weighted average period of approximately 13 years. These acquisitions have been added to the Power segment and \$2.7 million of the goodwill related to one of the acquisitions is currently expected to be deductible for tax purposes.

In the second quarter of 2017, the Company acquired all of the issued and outstanding limited liability company interests in iDevices, LLC ("iDevices") for \$59.2 million. iDevices is a developer with embedded firmware and application development expertise with custom-built Internet of Things ("IoT") Cloud infrastructure. The iDevices acquisition adds capabilities and expertise in IoT technology that is required to provide Tier 3 energy management solutions via connected hardware with a software front-end. iDevices is reported in the Electrical segment. We have recognized intangible assets of \$9.6 million and goodwill of \$45.3 million as a result of this acquisition. The \$9.6 million of intangible assets consists primarily of developed technology, customer relationships and trade names and will be amortized over a weighted average period of approximately 12 years. All of the goodwill is expected to be deductible for tax purposes.

In the second quarter of 2017, the Company also acquired substantially all of the assets of Advance Engineering Corporation and related companies (collectively "AEC") for \$31.6 million. AEC is a gas components manufacturer that complements the Company's existing business in the natural gas distribution vertical. AEC joins the Company's recent acquisitions of GasBreaker and Lyall to bolster its main-to-meter mechanical solutions in this area. AEC is reported in the Electrical segment. We have recognized intangible assets of \$16.8 million and goodwill of \$12.1 million as a result of this acquisition. The \$16.8 million of intangible assets consists primarily of customer relationships and trade names and will be amortized over a weighted average period of approximately 18 years. All of the goodwill is expected to be deductible for tax purposes.

These business acquisitions have been accounted for as business combinations and have resulted in the recognition of goodwill. The goodwill relates to a number of factors built into the purchase price, including the future earnings and cash flow potential of the businesses as well as the complementary strategic fit and resulting synergies they bring to the Company's existing operations.

The following table summarizes the preliminary fair values of the assets acquired and liabilities assumed at the dates of acquisition related to these transactions (in millions):

Tangible assets acquired	\$	21.3
Intangible assets		29.8
Goodwill		61.9
Net deferred taxes		(0.2)
Other liabilities assumed		(12.5)
TOTAL CONSIDERATION, NET OF CASH RECEIVED	\$	100.3

The allocation of purchase price for these acquisitions is based on preliminary estimates and assumptions, and is subject to revision based on final information received and other analysis that support the underlying estimates. We expect to complete our purchase accounting within the measurement period for each acquisition.

The Condensed Consolidated Financial Statements include the results of operations of the entities acquired from the date of acquisition. Net sales and earnings related to these acquisitions for the nine months ended September 30, 2017 were not significant to the consolidated results. Pro forma information related to these acquisitions has not been included because the impact to the Company's consolidated results of operations was not material.

Cash used for the acquisition of businesses, net of cash acquired as reported in the Consolidated Statement of Cash Flows for the nine months ended September 30, 2017, is \$110.3 million and includes payments associated with a 2016 acquisition for which the purchase price is due to be settled in installments.

NOTE 3 Segment Information

The Company's reporting segments consist of the Electrical segment and the Power segment. The Electrical segment is comprised of businesses that sell stock and custom products including standard and special application wiring device products, rough-in electrical products, connector and grounding products, light fixtures and controls, components and assemblies for the natural gas distribution market as well as other electrical and communication equipment, some of which is designed such that it can also be used in harsh and hazardous locations primarily in the oil and gas (onshore and offshore) and mining industries. These products are primarily sold through electrical and industrial distributors, home centers, retail and hardware outlets, lighting showrooms and residential product-oriented internet sites. The Electrical segment is comprised of three business groups, which have been aggregated as they have similar long-term economic characteristics, customers and distribution channels, among other factors. The Power segment primarily serves the electric utility industry and is comprised of a wide variety of electrical distribution, transmission, and substation products with high voltage applications as well as telecommunication products. The following table sets forth financial information by business segment (in millions):

	Net Sales		Operating Income		Operating Income as a % of Net Sales	
	2017	2016	2017	2016	2017	2016
Three Months Ended September 30,						
Electrical	\$ 654.0	\$ 634.6	\$ 85.6	\$ 80.9	13.1%	12.7%
Power	296.5	272.8	60.8	55.1	20.5%	20.2%
TOTAL	\$ 950.5	\$ 907.4	\$ 146.4	\$ 136.0	15.4%	15.0%
Nine Months Ended September 30,						
Electrical	\$ 1,897.9	\$ 1,858.7	\$ 206.6	\$ 213.5	10.9%	11.5%
Power	853.2	792.3	174.5	156.5	20.5%	19.8%
TOTAL	\$ 2,751.1	\$ 2,651.0	\$ 381.1	\$ 370.0	13.9%	14.0%

NOTE 4 Inventories, net

Inventories, net are comprised of the following (in millions):

	September 30, 2017	December 31, 2016
Raw material	\$ 188.4	\$ 162.7
Work-in-process	116.4	102.8
Finished goods	379.7	327.9
	684.5	593.4
Excess of FIFO over LIFO cost basis	(60.9)	(61.0)
TOTAL	\$ 623.6	\$ 532.4

NOTE 5 Goodwill and Intangible Assets, net

Changes in the carrying values of goodwill for the nine months ended September 30, 2017, were as follows (in millions):

	Segment		
	Electrical	Power	Total
BALANCE DECEMBER 31, 2016	\$ 652.0	\$ 339.0	\$ 991.0
Current year acquisitions (Note 2 – Business Acquisitions)	57.4	4.5	61.9
Foreign currency translation and prior year acquisitions	7.6	3.0	10.6
BALANCE SEPTEMBER 30, 2017	\$ 717.0	\$ 346.5	\$ 1,063.5

In the first quarter of 2017 we completed two acquisitions that were added to the Power segment. In the second quarter of 2017, we completed the acquisitions of AEC and iDevices. The AEC and iDevices acquisitions were added to the Electrical segment. These acquisitions have been accounted for as business combinations and have resulted in the recognition of \$61.9 million of goodwill. See Note 2 – Business Acquisitions for additional information.

The carrying value of other intangible assets included in Intangible assets, net in the Condensed Consolidated Balance Sheet is as follows (in millions):

	September 30, 2017		December 31, 2016	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Definite-lived:				
Patents, tradenames and trademarks	\$ 151.1	\$ (49.1)	\$ 143.7	\$ (43.4)
Customer/agent relationships and other	431.1	(150.1)	405.9	(128.0)
Total	\$ 582.2	\$ (199.2)	\$ 549.6	\$ (171.4)
Indefinite-lived:				
Tradenames and other	54.1	—	53.3	—
TOTAL	\$ 636.3	\$ (199.2)	\$ 602.9	\$ (171.4)

Amortization expense associated with definite-lived intangible assets was \$26.4 million and \$24.0 million for the nine months ended September 30, 2017 and 2016, respectively. Future amortization expense associated with these intangible assets is expected to be \$8.0 million for the remainder of 2017, \$32.7 million in 2018, \$31.0 million in 2019, \$31.3 million in 2020, \$30.7 million in 2021, and \$29.2 million in 2022.

NOTE 6 Other Accrued Liabilities

Other accrued liabilities are comprised of the following (in millions):

	September 30, 2017	December 31, 2016
Customer program incentives	\$ 36.1	\$ 41.2
Accrued income taxes	10.8	8.4
Deferred revenue	14.9	11.8
Other	96.5	94.8
TOTAL	\$ 158.3	\$ 156.2

NOTE 7 Other Non-Current Liabilities

Other non-current liabilities are comprised of the following (in millions):

	September 30, 2017	December 31, 2016
Pensions	\$ 209.6	\$ 208.3
Other post-retirement benefits	23.9	24.0
Deferred tax liabilities	46.3	41.2
Other	68.4	68.2
TOTAL	\$ 348.2	\$ 341.7

NOTE 8 Total Equity

Total equity is comprised of the following (in millions, except per share amounts):

	September 30, 2017	December 31, 2016
Common stock, \$.01 par value:		
Common Stock-- authorized 200.0 shares; issued and outstanding 54.7 and 55.5 shares	\$ 0.5	\$ 0.6
Additional paid-in capital	3.8	15.4
Retained earnings	1,914.3	1,879.3
Accumulated other comprehensive loss:		
Pension and post retirement benefit plan adjustment, net of tax	(175.0)	(180.5)
Cumulative translation adjustment	(85.5)	(120.8)
Unrealized gain on investment, net of tax	(0.2)	(1.2)
Cash flow hedge (loss) gain, net of tax	(1.9)	—
Total Accumulated other comprehensive loss	(262.6)	(302.5)
Hubbell shareholders' equity	1,656.0	1,592.8
Noncontrolling interest	11.7	10.4
TOTAL EQUITY	\$ 1,667.7	\$ 1,603.2

For accounting purposes, the Company treats repurchased shares as constructively retired when acquired and accordingly charges the purchase price against Common Stock par value, Additional paid-in capital, to the extent available, and Retained earnings. As a result of this accounting treatment, during the first nine months of 2017, \$72.1 million of purchase price of repurchased shares was allocated to retained earnings.

A summary of the changes in equity for the nine months ended September 30, 2017 and 2016 is provided below (in millions):

	Nine Months Ended September 30,					
	2017			2016		
	Hubbell Shareholders' Equity	Noncontrolling interest	Total Equity	Hubbell Shareholders' Equity	Noncontrolling interest	Total Equity
EQUITY, JANUARY 1	\$ 1,592.8	\$ 10.4	\$ 1,603.2	\$ 1,740.6	\$ 8.4	\$ 1,749.0

(a) These accumulated other comprehensive loss components are included in the computation of net periodic pension cost (see Note 11 - Pension and Other Benefits for additional details).

NOTE 10 Earnings Per Share

The Company computes earnings per share using the two-class method, which is an earnings allocation formula that determines earnings per share for common stock and participating securities. Service-based and performance-based restricted stock awards granted by the Company are considered participating securities as these awards contain a non-forfeitable right to dividends.

The following table sets forth the computation of earnings per share for the three and nine months ended September 30, 2017 and 2016 (in millions, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Numerator:				
Net income attributable to Hubbell	\$ 80.8	\$ 86.7	\$ 222.7	\$ 228.6
Less: Earnings allocated to participating securities	(0.3)	(0.3)	(0.7)	(0.7)
Net income available to common shareholders	\$ 80.5	\$ 86.4	\$ 222.0	\$ 227.9
Denominator:				
Average number of common shares outstanding	54.6	55.3	54.9	55.6
Potential dilutive common shares	0.3	0.2	0.3	0.2
Average number of diluted shares outstanding	54.9	55.5	55.2	55.8
Earnings per share:				
Basic	\$ 1.47	\$ 1.56	\$ 4.05	\$ 4.10
Diluted	\$ 1.47	\$ 1.56	\$ 4.02	\$ 4.08

The Company did not have outstanding any significant anti-dilutive securities during the three and nine months ended September 30, 2017 and 2016.

NOTE 11 Pension and Other Benefits

The following table sets forth the components of net pension and other benefit costs for the three and nine months ended September 30, 2017 and 2016 (in millions):

	Pension Benefits		Other Benefits	
	2017	2016	2017	2016
Three Months Ended September 30,				
Service cost	\$ 1.5	\$ 3.1	\$ —	\$ —
Interest cost	9.3	10.5	0.4	0.3
Expected return on plan assets	(8.6)	(11.3)	—	—
Amortization of prior service cost	—	0.1	(0.3)	(0.3)
Amortization of actuarial losses	3.0	3.4	—	—
Curtailment and settlement losses	—	—	—	—
NET PERIODIC BENEFIT COST	\$ 5.2	\$ 5.8	\$ 0.1	\$ —
Nine Months Ended September 30,				
Service cost	\$ 4.5	\$ 10.1	\$ —	\$ —
Interest cost	27.8	31.5	0.8	0.9
Expected return on plan assets	(25.6)	(33.3)	—	—
Amortization of prior service cost	—	0.1	(0.7)	(0.7)
Amortization of actuarial losses	8.5	10.4	—	—
Curtailment and settlement losses	0.5	—	—	—
NET PERIODIC BENEFIT COST	\$ 15.7	\$ 18.8	\$ 0.1	\$ 0.2

Employer Contributions

Although not required by ERISA and the Internal Revenue Code, the Company may elect to make a voluntary contribution to its qualified domestic defined benefit pension plan in 2017. The Company anticipates making required contributions of approximately \$1.7 million to its foreign pension plans during 2017, of which \$1.3 million has been contributed through September 30, 2017.

NOTE 12 Guarantees

The Company records a liability equal to the fair value of guarantees in accordance with the accounting guidance for guarantees. When it is probable that a liability has been incurred and the amount can be reasonably estimated, the Company accrues for costs associated with guarantees. The most likely costs to be incurred are accrued based on an evaluation of currently available facts and, where no amount within a range of estimates is more likely, the minimum is accrued.

As of September 30, 2017 and December 31, 2016, the fair value and maximum potential payment related to the Company's guarantees were not material.

The Company offers product warranties that cover defects on most of its products. These warranties primarily apply to products that are properly installed, maintained and used for their intended purpose. The Company accrues estimated warranty costs at the time of sale. Estimated warranty expenses, recorded in cost of goods sold, are based upon historical information such as past experience, product failure rates, or the estimated number of units to be repaired or replaced. Adjustments are made to the product warranty accrual as claims are incurred, additional information becomes known or as historical experience indicates.

Changes in the accrual for product warranties during the nine months ended September 30, 2017 and 2016 are set forth below (in millions):

	2017	2016
BALANCE AT JANUARY 1,	\$ 13.8	\$ 13.2
Provision	9.6	7.0
Expenditures/other	(8.2)	(6.7)
BALANCE AT SEPTEMBER 30,	\$ 15.2	\$ 13.5

NOTE 13 Fair Value Measurement

Investments

At September 30, 2017 and December 31, 2016, the Company had \$56.9 million and \$57.4 million, respectively, of available-for-sale securities, consisting of municipal bonds classified in Level 2 of the fair value hierarchy and an investment in the redeemable preferred stock of a privately-held electrical utility substation security provider classified in Level 3 of the fair value hierarchy. The Company also had \$13.2 million of trading securities at September 30, 2017 and \$10.2 million at December 31, 2016 that are carried on the balance sheet at fair value. Unrealized gains and losses associated with available-for-sale securities are reflected in Accumulated other comprehensive loss, net of tax, while unrealized gains and losses associated with trading securities are reflected in the results of operations.

Fair value measurements

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The FASB fair value measurement guidance established a fair value hierarchy that prioritizes the inputs used to measure fair value. The three broad levels of the fair value hierarchy are as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly.

Level 3 – Unobservable inputs for which little or no market data exists, therefore requiring a company to develop its own assumptions.

The following table shows, by level within the fair value hierarchy, our financial assets and liabilities that are accounted for at fair value on a recurring basis at September 30, 2017 and December 31, 2016 (in millions):

Asset (Liability)	Quoted Prices in Active Markets for Identical Assets (Level 1)		Quoted Prices in Active Markets for Similar Assets (Level 2)		Unobservable inputs for which little or no market data exists (Level 3)		Total
September 30, 2017							
Money market funds ^(a)	\$	198.1	\$	—	\$	—	\$ 198.1
Time deposits ^(a)		—		29.9		—	29.9
Available for sale investments		—		52.6		4.3	56.9
Trading securities		13.2		—		—	13.2
Deferred compensation plan liabilities		(13.2)		—		—	(13.2)
Derivatives:							
Forward exchange contracts-Assets ^(b)		—		—		—	—
Forward exchange contracts-(Liabilities) ^(c)		—		(2.2)		—	(2.2)
TOTAL	\$	198.1	\$	80.3	\$	4.3	\$ 282.7

	Quoted Prices in Active Markets for Identical Assets (Level 1)		Quoted Prices in Active Markets for Similar Assets (Level 2)		Unobservable inputs for which little or no market data exists (Level 3)		Total
December 31, 2016							
Money market funds ^(a)	\$	263.5	\$	—	\$	—	\$ 263.5
Available for sale investments		—		53.6		3.8	57.4
Trading securities		10.2		—		—	10.2
Deferred compensation plan liabilities		(10.2)		—		—	(10.2)
Derivatives:							
Forward exchange contracts-Assets ^(b)		—		0.8		—	0.8
Forward exchange contracts-(Liabilities) ^(c)		—		(0.1)		—	(0.1)
TOTAL	\$	263.5	\$	54.3	\$	3.8	\$ 321.6

^(a) Money market funds and time deposits are reflected in Cash and cash equivalents in the Condensed Consolidated Balance Sheet.

^(b) Forward exchange contracts-Assets are reflected in Other current assets in the Condensed Consolidated Balance Sheet.

^(c) Forward exchange contracts-(Liabilities) are reflected in Other accrued liabilities in the Condensed Consolidated Balance Sheet.

The methods and assumptions used to estimate the Level 2 and Level 3 fair values were as follows:

Forward exchange contracts – The fair value of forward exchange contracts were based on quoted forward foreign exchange prices at the reporting date.

Available-for-sale municipal bonds classified in Level 2 – The fair value of available-for-sale investments in municipal bonds is based on observable market-based inputs, other than quoted prices in active markets for identical assets.

Available-for-sale redeemable preferred stock classified in Level 3 – The fair value of the available-for-sale investment in redeemable preferred stock is valued based on a discounted cash flow model, using significant unobservable inputs, including expected cash flows and the discount rate.

During the three and nine months ended September 30, 2017 there were no transfers of financial assets or liabilities in or out of Level 1, Level 2, or Level 3 of the fair value hierarchy.

Deferred compensation plans

The Company offers certain employees the opportunity to participate in non-qualified deferred compensation plans. A participant's deferrals are invested in a variety of participant-directed debt and equity mutual funds that are classified as trading securities. During the nine months ended September 30, 2017 and 2016, the Company purchased \$1.8 million and \$1.3 million, respectively, of trading securities related to these deferred compensation plans. As a result of participant distributions, the Company sold \$0.3 million of these trading securities during the nine months ended September 30, 2017 and \$1.2 million during the nine months ended September 30, 2016. The unrealized gains and losses associated with these trading securities are directly offset by the changes in the fair value of the underlying deferred compensation plan obligation.

Derivatives

In order to limit financial risk in the management of its assets, liabilities and debt, the Company may use derivative financial instruments such as foreign currency hedges, commodity hedges, interest rate hedges and interest rate swaps. All derivative financial instruments are matched with an existing Company asset, liability or forecasted transaction. Market value gains or losses on the derivative financial instrument are recognized in income when the effects of the related price changes of the underlying asset, liability or forecasted transaction are recognized in income. Derivative assets and derivative liabilities are not offset in the Condensed Consolidated Balance Sheet.

In 2017 and 2016, the Company entered into a series of forward exchange contracts to purchase U.S. dollars in order to hedge exposure to fluctuating rates of exchange for both anticipated inventory purchases and forecasted sales by its subsidiaries that transact business in Canada. As of September 30, 2017, the Company had 52 individual forward exchange contracts for an aggregate notional amount of \$38.0 million, having various expiration dates through September 2018. These contracts have been designated as cash flow hedges in accordance with the accounting guidance for derivatives.

The following table summarizes the results of cash flow hedging relationships for the three months ended September 30, 2017 and 2016 (in millions):

Derivative Instrument	Derivative Gain/(Loss) Recognized in Accumulated Other Comprehensive Income (net of tax)		Location of Gain/(Loss) Reclassified into Income (Effective Portion)	Gain/(Loss) Reclassified into Earnings Effective Portion (net of tax)	
	2017	2016		2017	2016
Forward exchange contract	\$ (1.4)	\$ (0.3)	Net sales	\$ (0.1)	\$ —
			Cost of goods sold	\$ (0.3)	\$ (0.3)

The following table summarizes the results of cash flow hedging relationships for the nine months ended September 30, 2017 and 2016 (in millions):

Derivative Instrument	Derivative Gain/(Loss) Recognized in Accumulated Other Comprehensive Loss (net of tax)		Location of Gain/(Loss) Reclassified into Income (Effective Portion)	Gain/(Loss) Reclassified into Earnings Effective Portion (net of tax)	
	2017	2016		2017	2016
Forward exchange contract	\$ (2.3)	\$ (1.8)	Net sales	\$ (0.1)	\$ (0.2)
			Cost of goods sold	\$ (0.3)	\$ 0.3

Hedge ineffectiveness was immaterial with respect to the forward exchange cash flow hedges during the three and nine months ended September 30, 2017 and 2016.

Long Term Debt

As of September 30, 2017 and December 31, 2016, the estimated fair value of our long-term debt was \$1,018.8 million and \$1,017.8 million, respectively, using quoted market prices in active markets for similar liabilities (Level 2).

NOTE 14 Commitments and Contingencies

The Company is subject to various legal proceedings arising in the normal course of its business. These proceedings include claims for damages arising out of use of the Company's products, intellectual property, workers' compensation and environmental matters. The Company is self-insured up to specified limits for certain types of claims, including product liability and workers' compensation, and is fully self-insured for certain other types of claims, including environmental and intellectual property matters. The Company recognizes a liability for any contingency that in management's judgment is probable of occurrence and can be reasonably estimated. We continually reassess the likelihood of adverse judgments and outcomes in these matters, as well as estimated ranges of possible losses based upon an analysis of each matter which includes consideration of outside legal counsel and, if applicable, other experts.

NOTE 15 Restructuring Costs and Other

In the nine months ended September 30, 2017, we incurred costs for restructuring actions initiated in 2017 as well as costs for restructuring actions initiated in the prior year. Our restructuring actions are associated with cost reduction efforts that include the consolidation of manufacturing and distribution facilities as well as workforce reductions and the sale or exit of business units we determine to be non-strategic. Restructuring costs include severance and employee benefits, asset impairments, as well as facility closure, contract termination and certain pension costs that are directly related to restructuring actions. These costs are predominantly settled in cash from our operating activities and are generally settled within one year, with the exception of asset impairments, which are non-cash, and a \$12.5 million charge in the fourth quarter of 2016 to recognize the estimated liability associated with the withdrawal from a multi-employer pension plan. That withdrawal liability may be settled either in periodic payments over approximately 19 years, or in a lump sum, subject to negotiations expected to occur before the end of 2017.

Pre-tax restructuring costs incurred in each of our segments and the location of the costs in the Condensed Consolidated Statement of Income for the three and nine months ended September 30, 2017 and 2016 is as follows (in millions):

	Three Months Ended September 30,					
	2017	2016	2017	2016	2017	2016
	Cost of goods sold		Selling & administrative expense		Total	
Electrical Segment	\$ 1.9	\$ 4.2	\$ 0.9	\$ 0.1	\$ 2.8	\$ 4.3
Power Segment	0.3	—	0.2	0.2	0.5	0.2
Total Pre-Tax Restructuring Costs	\$ 2.2	\$ 4.2	\$ 1.1	\$ 0.3	\$ 3.3	\$ 4.5

	Nine Months Ended September 30,					
	2017	2016	2017	2016	2017	2016
	Cost of goods sold		Selling & administrative expense		Total	
Electrical Segment	\$ 8.2	\$ 7.8	\$ 3.3	\$ 5.0	\$ 11.5	\$ 12.8
Power Segment	1.4	0.5	0.6	0.6	2.0	1.1
Total Pre-Tax Restructuring Costs	\$ 9.6	\$ 8.3	\$ 3.9	\$ 5.6	\$ 13.5	\$ 13.9

The following table summarizes the accrued liabilities for our restructuring actions (in millions):

	Beginning Accrued Restructuring Balance 1/1/17	Pre-tax Restructuring Costs	Utilization and Foreign Exchange	Ending Accrued Restructuring Balance 9/30/2017
2017 Restructuring Actions				
Severance	\$ —	\$ 5.8	\$ (2.6)	\$ 3.2
Asset write-downs	—	0.1	(0.1)	—
Facility closure and other costs	—	2.5	(2.0)	0.5
Total 2017 Restructuring Actions	\$ —	\$ 8.4	\$ (4.7)	\$ 3.7
2016 and Prior Restructuring Actions				
Severance	\$ 10.4	\$ (0.6)	\$ (4.7)	\$ 5.1
Asset write-downs	—	—	—	—
Facility closure and other costs ^(a)	14.1	5.7	(6.0)	13.8
Total 2016 and Prior Restructuring Actions	\$ 24.5	\$ 5.1	\$ (10.7)	\$ 18.9
Total Restructuring Actions	\$ 24.5	\$ 13.5	\$ (15.4)	\$ 22.6

(a) Facility closure and other costs as of 1/1/17 includes a charge of approximately \$12.5 million to accrue the estimated liability associated with the anticipated withdrawal from a multi-employer pension plan as a result of a restructuring action.

The actual costs incurred and total expected cost of our on-going restructuring actions are as follows (in millions):

	Total expected costs		Costs incurred during 2016		Costs incurred during first nine months of 2017		Remaining costs at 9/30/2017	
2017 Restructuring Actions								
Electrical Segment	\$	8.4	\$	—	\$	6.4	\$	2.0
Power Segment		3.7		—		2.0		1.7
Total 2017 Restructuring Actions	\$	12.1	\$	—	\$	8.4	\$	3.7
2016 and Prior Restructuring Actions								
Electrical Segment ^(a)	\$	41.8	\$	33.9	\$	5.1	\$	2.8
Power Segment		1.4		1.1		—		0.3
Total 2016 and Prior Restructuring Actions	\$	43.2	\$	35.0	\$	5.1	\$	3.1
Total Restructuring Actions	\$	55.3	\$	35.0	\$	13.5	\$	6.8

^(a) Costs incurred in 2016 relating to 2016 Restructuring Actions in the Electrical segment include the \$12.5 million previously mentioned charge representing the estimated withdrawal liability from a multi-employer pension plan. Any potential future liability in excess of the amount already recognized in 2016 is not included in the remaining costs at September 30, 2017. Additional information about the estimated withdrawal liability can be found in Note 10 - Retirement Benefits in the Notes to Consolidated Financial Statements in the Hubbell Incorporated Annual Report on Form 10-K for the year ended December 31, 2016.

NOTE 16 Long Term Debt and Financing Arrangements

Long-term debt consists of the following (in millions):

	Maturity	September 30, 2017		December 31, 2016
Senior notes at 5.95%	2018	\$	—	\$ 299.3
Senior notes at 3.625%	2022		297.8	297.5
Senior notes at 3.35%	2026		394.2	393.7
Senior notes at 3.15%	2027		294.7	—
TOTAL LONG-TERM DEBT ^(a)		\$	986.7	\$ 990.5

^(a) Long-term debt is presented net of debt issuance costs and unamortized discounts.

In August 2017, the Company completed a public debt offering of \$300 million aggregate principal amount of its long-term unsecured, unsubordinated notes maturing in August 2027 and bearing interest at a fixed rate of 3.15% (the "2027 Notes"). Net proceeds from the issuance were \$294.6 million after deducting the discount on the notes and offering expenses paid by the Company. The 2027 Notes are fixed rate indebtedness, are callable at any time with a make whole premium and are only subject to accelerated payment prior to maturity in the event of a default (including as a result of the Company's failure to meet certain non-financial covenants) under the indenture governing the 2027 Notes, as modified by the supplemental indenture creating such notes, or upon a change in control event as defined in such indenture. The Company was in compliance with all non-financial covenants under the indenture as of September 30, 2017.

In September 2017, the Company applied the net proceeds from the 2027 Notes to redeem all of its \$300 million outstanding long-term, unsecured, unsubordinated notes maturing in 2018 and bearing interest at a fixed rate of 5.95% (the "2018 Notes"). In connection with this redemption, the Company recognized a loss on the early extinguishment of the 2018 Notes of \$6.3 million on an after-tax basis.

At December 31, 2016, the Company had \$3.2 million of short-term debt outstanding. The Company had \$93.8 million short-term debt outstanding at September 30, 2017, which consisted primarily of commercial paper.

ITEM 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Overview of the Business

The Company is primarily engaged in the design, manufacture and sale of quality electrical and electronic products for a broad range of non-residential and residential construction, industrial and utility applications. Products are either sourced complete, manufactured or assembled by subsidiaries in the United States, Canada, Switzerland, Puerto Rico, China, Mexico, Italy, the United Kingdom, Brazil, Australia and Ireland. The Company also participates in joint ventures in Taiwan and Hong Kong, and maintains offices in Singapore, China, India, Mexico, South Korea and countries in the Middle East. The Company employs approximately 17,900 individuals worldwide.

The Company's reporting segments consist of the Electrical segment and the Power segment. Results for the three and nine months ended September 30, 2017 are included under "Segment Results" within this Management Discussion and Analysis.

The Company's long-term strategy is to serve its customers with reliable and innovative solutions delivered through a competitive cost structure; to complement organic growth with acquisitions that enhance its product offerings; and to allocate capital effectively to create shareholder value. In executing this strategy, the Company is focused on growing profits and delivering attractive returns to shareholders by executing a business plan focused on the following key initiatives: growing revenue, aligning the cost structure, improving productivity and deploying capital effectively.

Our strategy to grow revenue is focused on complementing organic growth with acquisitions that expand our product offerings and present opportunities to compete in core, adjacent or complementary markets. Our organic growth initiatives remain focused on expanding market share through new product introductions and more effective utilization of sales and marketing efforts across the organization. Acquisitions are a key component of our revenue growth strategy, not only to expand our reach into new markets and further into existing markets with new products, but also to advance our revenue growth objectives during periods of weakness or inconsistency in our end-markets.

Aligning our cost structure with the needs of our business is a key initiative and has resulted in the restructuring and related activities we have initiated, beginning in 2014. Our restructuring and related efforts include the consolidation of manufacturing and distribution facilities, workforce actions, as well as streamlining and consolidating our back-office functions. The primary objectives of our restructuring and related activities are to optimize our manufacturing footprint, cost structure, and effectiveness and efficiency of our workforce.

Productivity improvement also continues to be a key area of focus for the Company and efforts to drive productivity work with our restructuring and related activities to minimize the impact of rising material costs and administrative cost inflation. Material costs are approximately two-thirds of our cost of goods sold, therefore volatility in this area can significantly impact profitability. Our goal is to have pricing and productivity programs that offset material and other inflationary cost increases as well as pay for investments in key growth areas.

Productivity programs impact virtually all functional areas within the Company by reducing or eliminating waste and improving processes. We continue to expand our efforts surrounding global product and component sourcing and supplier cost reduction programs. Value engineering efforts, product transfers and the use of lean process improvement techniques are expected to continue to increase manufacturing efficiency. In addition, we continue to build upon the benefits of our enterprise resource planning system across all functions.

Results of Operations – Third Quarter of 2017 compared to the Third Quarter of 2016

SUMMARY OF CONSOLIDATED RESULTS (IN MILLIONS, EXCEPT PER SHARE DATA):

	Three Months Ended September 30,			
	2017	% of Net sales	2016	% of Net sales
Net sales	\$ 950.5		\$ 907.4	
Cost of goods sold	643.6	67.7%	618.7	68.2%
Gross profit	306.9	32.3%	288.7	31.8%
Selling & administrative ("S&A") expense	160.5	16.9%	152.7	16.8%
Operating income	146.4	15.4%	136.0	15.0%
Net income attributable to Hubbell	80.8	8.5%	86.7	9.6%
EARNINGS PER SHARE – DILUTED	\$ 1.47		\$ 1.56	

Our consolidated results of operations in the three and nine months ending September 30, 2017 and 2016 include what we refer to as "Restructuring and Related Costs." Restructuring actions support our cost reduction efforts involving the consolidation of manufacturing and distribution facilities as well as workforce reductions and the sale or exit of business units we determine to be non-strategic. Restructuring costs include severance and employee benefits, asset impairments, as well as facility closure, contract termination and certain pension costs that are directly related to restructuring actions. Restructuring-related costs are costs associated with our business transformation initiatives, including the consolidation of back-office functions and streamlining our processes, and certain other costs and gains associated with restructuring actions.

Our consolidated results of operations in 2017 also include a \$10.1 million pre-tax loss on the early extinguishment of long-term debt from the redemption of all of our \$300 million outstanding long-term unsecured, unsubordinated notes that were scheduled to mature in 2018.

We believe certain non-GAAP measures that exclude these items may provide investors with useful information regarding our underlying performance from period to period and allow investors to assess the impact of the Company's restructuring and related activities and business transformation initiatives on the results of operations. Adjusted gross profit, adjusted selling & administrative ("S&A") expense, and adjusted operating income each exclude Restructuring and Related Costs. Adjusted net income attributable to Hubbell and adjusted earnings per diluted share exclude Restructuring and Related Costs as well as the loss on early extinguishment of long-term debt. Management uses these adjusted measures when assessing the performance of the business.

The following table reconciles our restructuring costs to our Restructuring and Related Costs for the three months ended September 30, 2017 and 2016 (in millions):

	Three Months Ended September 30,					
	2017	2016	2017	2016	2017	2016
	Cost of goods sold		S&A expense		Total	
Restructuring costs (See Note 15 - Restructuring Costs)	\$ 2.2	\$ 4.2	\$ 1.1	\$ 0.3	\$ 3.3	\$ 4.5
Restructuring related costs	0.5	0.1	2.0	1.3	2.5	1.4
Restructuring and related costs (non-GAAP measure)	\$ 2.7	\$ 4.3	\$ 3.1	\$ 1.6	\$ 5.8	\$ 5.9

Of the \$5.8 million of Restructuring and Related Costs incurred in the third quarter of 2017, \$4.7 million is recorded in the Electrical segment and \$1.1 million is recorded in the Power segment. Of the \$5.9 million of Restructuring and Related Costs incurred in the third quarter of 2016, \$5.2 million is recorded in the Electrical segment and \$0.7 million is recorded in the Power segment.

Our full year 2017 earnings per diluted share expectation anticipates (each net of tax) approximately \$0.30 of Restructuring and Related Costs, of which \$0.07 has been incurred in the third quarter of 2017 and \$0.26 has been incurred the first nine months of 2017.

The following table reconciles our adjusted financial measures to the directly comparable GAAP financial measure (in millions, except per share amounts):

	Three Months Ended September 30,			
	2017	% of Net sales	2016	% of Net sales
Gross profit (GAAP measure)	\$ 306.9	32.3%	\$ 288.7	31.8%
Restructuring and related costs	2.7		4.3	
Adjusted gross profit	\$ 309.6	32.6%	\$ 293.0	32.3%
S&A expenses (GAAP measure)	\$ 160.5	16.9%	\$ 152.7	16.8%
Restructuring and related costs	3.1		1.6	
Adjusted S&A expenses	\$ 157.4	16.6%	\$ 151.1	16.7%
Operating income (GAAP measure)	\$ 146.4	15.4%	\$ 136.0	15.0%
Restructuring and related costs	5.8		5.9	
Adjusted operating income	\$ 152.2	16.0%	\$ 141.9	15.6%
Net income attributable to Hubbell (GAAP measure)	\$ 80.8		\$ 86.7	
Restructuring and related costs, net of tax	3.9		4.0	
Loss on extinguishment of debt, net of tax	6.3		—	
Adjusted net income attributable to Hubbell	\$ 91.0		\$ 90.7	
Less: Earnings allocated to participating securities	(0.3)		(0.3)	
Adj. net income available to common shareholders	\$ 90.7		\$ 90.4	
Average number of diluted shares outstanding	54.9		55.5	
ADJUSTED EARNINGS PER SHARE – DILUTED	\$ 1.65		\$ 1.63	

Net Sales

Net sales of \$950.5 million in the third quarter of 2017 increased five percent compared to the third quarter of 2016 due to higher organic volume and the contribution of acquisitions. Organic volume, including the impact of pricing headwinds, added approximately four percentage points to net sales and acquisitions contributed one percentage point.

Cost of Goods Sold

As a percentage of net sales, cost of goods sold decreased to 67.7% in the third quarter of 2017 as compared to 68.2% in the third quarter of 2016. The decrease was primarily due to gains from productivity in excess of cost inflation, greater realized savings from our restructuring and related actions and lower Restructuring and Related Costs, partially offset by price and material cost headwinds as well as a 40 basis point headwind from acquisitions.

Gross Profit

The gross profit margin in the third quarter of 2017 increased to 32.3% as compared to 31.8% in the third quarter of 2016. Restructuring and Related Costs in Cost of goods sold in the third quarter of 2017 decreased by \$1.6 million as compared to the same period of the prior year. Excluding Restructuring and Related Costs, the adjusted gross profit margin was 32.6% in the third quarter of 2017 as compared to 32.3% in the third quarter of 2016. The increase in the adjusted gross profit margin was primarily due to gains from productivity in excess of cost inflation and greater realized savings from our restructuring and related actions, partially offset by price and material cost headwinds as well as acquisitions, which reduced the adjusted gross profit margin by approximately 40 basis points in the third quarter of 2017.

Selling & Administrative Expenses

S&A expense in the third quarter of 2017 was \$160.5 million as compared to \$152.7 million in the same period of the prior year. Restructuring and Related Costs in S&A expense in the third quarter of 2017 were \$1.5 million higher as compared to the same period of the prior year. S&A expense as a percentage of net sales increased by 10 basis points to 16.9% in the third quarter of 2017. Excluding Restructuring and Related Costs, adjusted S&A expense as a percentage of net sales declined by 10 basis points to 16.6% in the third quarter of 2017 primarily due to higher net sales volume and greater realized savings from our restructuring and related actions, partially offset by acquisitions, which increased the adjusted S&A expense as a percentage of net sales by approximately 20 basis points.

Total Other Expense

Total other expense was \$22.8 million in the third quarter of 2017 as compared to \$11.9 million in the third quarter of 2016. The increase was primarily due to a \$10.1 million pre-tax loss on the early extinguishment of long-term debt recognized in the third quarter of 2017 from the redemption of all of our \$300 million outstanding long-term notes that were scheduled to mature in 2018.

Income Taxes

The effective tax rate in the third quarter of 2017 increased to 33.0% from 29.0% in the third quarter of 2016. The increase is primarily attributable to favorable return to provision and other discrete items in the prior year that did not repeat in the current year and unfavorable earnings mix in jurisdictions with higher tax rates in the third quarter of 2017.

Net Income Attributable to Hubbell and Earnings Per Diluted Share

Net income attributable to Hubbell was \$80.8 million in the third quarter of 2017 and decreased seven percent as compared to the third quarter of 2016. Excluding Restructuring and Related Costs and the loss on debt extinguishment, adjusted net income attributable to Hubbell was \$91.0 million in the third quarter of 2017 and was flat as compared to the third quarter of the prior year. Earnings per diluted share in the third quarter of 2017 decreased six percent as compared to the third quarter of 2016. Adjusted earnings per diluted share in the third quarter of 2017 increased one percent as compared to the third quarter of 2016 and reflects the decline in the average number of diluted shares outstanding of 0.6 million as compared to the same period of the prior year.

Segment Results

ELECTRICAL

(In millions)	Three Months Ended September 30,	
	2017	2016
Net sales	\$ 654.0	\$ 634.6
Operating income	\$ 85.6	\$ 80.9
Restructuring and related costs	4.7	5.2
Adjusted operating income	\$ 90.3	\$ 86.1
Operating margin	13.1%	12.7%
Adjusted operating margin	13.8%	13.6%

Net sales in the Electrical segment in the third quarter of 2017 were \$654.0 million, up approximately three percent as compared to the third quarter of 2016 due to higher organic volume, including the impact of pricing headwinds, and the contribution of net sales from acquisitions. Organic volume, including the impact of pricing headwinds, added two percentage points and acquisitions added one percentage point.

Within the segment, the aggregate net sales of our Commercial and Industrial and Construction and Energy business groups increased by six percentage points, due to four percentage points of organic growth, driven primarily by net sales growth of our harsh and hazardous products serving the energy-related markets, and two percentage points of net sales growth from acquisitions. Net sales of our Lighting business group decreased two percent in the third quarter of 2017 primarily due to headwinds from pricing as organic volume was higher, by less than one percent. Within the Lighting business group, organic net sales of residential products and commercial and industrial lighting products each declined by two percentage points.

Operating income in the Electrical segment for the third quarter of 2017 was \$85.6 million and increased six percent compared to the third quarter of 2016. Operating margin in the third quarter of 2017 increased by 40 basis points to 13.1% as compared to the same period of 2016. Excluding Restructuring and Related Costs, the adjusted operating margin increased by 20 basis points to 13.8%. The increase in the adjusted operating margin is primarily due to greater realized savings from our restructuring and related actions as well as incremental earnings from higher net sales volume. The favorable impact of those items was partially offset by acquisitions, which reduced the adjusted operating margin by approximately 80 basis points in the third quarter of 2017, as well as price erosion and material and inflationary costs in excess of productivity gains.

POWER

(In millions)	Three Months Ended September 30,	
	2017	2016
Net sales	\$ 296.5	\$ 272.8
Operating income	\$ 60.8	\$ 55.1
Restructuring and related costs	1.1	0.7
Adjusted operating income	\$ 61.9	\$ 55.8
Operating margin	20.5%	20.2%
Adjusted operating margin	20.9%	20.5%

Net sales in the Power segment in the third quarter of 2017 were \$296.5 million, up nine percent as compared to the third quarter of 2016, primarily due to higher organic volume and the net sales contribution from acquisitions. Organic volume added approximately eight percentage points, driven by growth in the distribution and transmission markets including storm-related sales associated with recent hurricanes, and acquisitions contributed one percentage point to net sales growth.

Operating income in the Power segment increased ten percent to \$60.8 million in the third quarter of 2017. Operating margin in the third quarter of 2017 increased by 30 basis points to 20.5% as compared to the same period of 2016. Excluding Restructuring and Related Costs, the adjusted operating margin was 20.9% in the third quarter of 2017 and increased by 40 basis points as compared to the same period of 2016 as gains from productivity initiatives in excess of cost inflation and incremental earnings from higher net sales volume were partially offset by price and material cost headwinds.

Results of Operations – Nine Months Ended September 30, 2017 compared to the Nine Months Ended September 30, 2016

SUMMARY OF CONSOLIDATED RESULTS (IN MILLIONS, EXCEPT PER SHARE DATA):

	Nine Months Ended September 30,			
	2017	% of Net sales	2016	% of Net sales
Net sales	\$ 2,751.1		\$ 2,651.0	
Cost of goods sold	1,887.7	68.6%	1,808.9	68.2%
Gross profit	863.4	31.4%	842.1	31.8%
Selling & administrative expense	482.3	17.5%	472.1	17.8%
Operating income	381.1	13.9%	370.0	14.0%
Net income attributable to Hubbell	222.7	8.1%	228.6	8.6%
EARNINGS PER SHARE – DILUTED	\$ 4.02		\$ 4.08	

The following table reconciles our restructuring costs to our Restructuring and Related Costs for the nine months ended September 30, 2017 and 2016 (in millions):

	Nine Months Ended September 30,					
	2017	2016	2017	2016	2017	2016
	Cost of goods sold		S&A expense		Total	
Restructuring costs (See Note 15 - Restructuring Costs)	\$ 9.6	\$ 8.3	\$ 3.9	\$ 5.6	\$ 13.5	\$ 13.9
Restructuring related costs	1.3	1.8	5.7	3.3	7.0	5.1
Restructuring and related costs (non-GAAP measure)	\$ 10.9	\$ 10.1	\$ 9.6	\$ 8.9	\$ 20.5	\$ 19.0

Of the \$20.5 million of Restructuring and Related Costs incurred in the first nine months of 2017, \$16.6 million is recorded in the Electrical segment and \$3.9 million is recorded in the Power segment. Of the \$19.0 million of Restructuring and Related Costs incurred in the first nine months of 2016, \$16.7 million is recorded in the Electrical segment and \$2.3 million is recorded in the Power segment.

The following table reconciles our adjusted financial measures to the directly comparable GAAP financial measure (in millions, except per share amounts):

	Nine Months Ended September 30,			
	2017	% of Net sales	2016	% of Net sales

Adj. net income available to common shareholders	\$ 242.1		\$ 240.8	
Average number of diluted shares outstanding	55.2		55.8	
ADJUSTED EARNINGS PER SHARE – DILUTED	\$ 4.39		\$ 4.31	

Net Sales

Net sales of \$2.8 billion for the first nine months of 2017 increased four percent compared to the first nine months of 2016 primarily due to higher organic volume and the contribution of net sales from acquisitions. Organic volume, including the impact of pricing headwinds, contributed two percentage points and acquisitions contributed two percentage points to net sales growth.

Cost of Goods Sold

As a percentage of net sales, cost of goods sold increased to 68.6% for the first nine months of 2017 compared to 68.2% for the first nine months of 2016. The increase was primarily due to price and material cost headwinds as well as a 20 basis point headwind from acquisitions and higher Restructuring and Related Costs, partially offset by gains from productivity initiatives that exceeded cost inflation and greater realized savings from our restructuring and related actions.

Gross Profit

The gross profit margin was 31.4% in the first nine months of 2017 compared to 31.8% in the first nine months of 2016. Restructuring and Related Costs in Cost of goods sold in the first nine months of 2017 were \$0.8 million higher as compared to the same period of the prior year. Excluding Restructuring and Related Costs, the adjusted gross profit margin was 31.8% in the first nine months of 2017 as compared to 32.1% in the same period of the prior year. The decrease in the adjusted gross profit margin was primarily due to price and material cost headwinds as well as a 20 basis point headwind from acquisitions, partially offset by gains from productivity initiatives that exceeded cost inflation and greater realized savings from our restructuring and related actions.

Selling & Administrative Expenses

S&A expense in the first nine months of 2017 was \$482.3 million and increased by \$10.2 million compared the same period of the prior year. S&A expense as a percentage of net sales declined by 30 basis points to 17.5% in the first nine months of 2017. Excluding Restructuring and Related Costs, adjusted S&A expense as a percentage of net sales also declined by 30 basis points to 17.2% in the first nine months of 2017 primarily due to higher net sales volume and greater realized savings from our restructuring and related actions, partially offset by acquisitions, which increased the adjusted S&A expense as a percentage of net sales by approximately 10 basis points.

Total Other Expense

Total other expense was \$49.9 million in the first nine months of 2017 compared to \$37.5 million in the first nine months of 2016. The increase was primarily due to a \$10.1 million pre-tax loss on the early extinguishment of long-term debt recognized in the third quarter of 2017 from the redemption of all of our \$300 million outstanding long-term notes that were scheduled to mature in 2018, in addition we incurred higher interest expense in the first nine months of 2017 and higher foreign exchange losses in the first nine months of 2017. Those increases were partially offset by the write-off of an escrow receivable in the second quarter of 2016 associated with a prior acquisition. This write off had no effect on net income of the prior year as it was offset in income taxes by the release of a related liability.

Income Taxes

The effective tax rate in the first nine months of 2017 increased to 31.3% from 30.2% in the first nine months of 2016. The increase is primarily attributable to return to provision and other discrete favorable items in the prior year that did not repeat in the current year, including the release of a liability in the second quarter of 2016 caused by the expiration of certain statutes associated with an uncertain tax position from a prior acquisition, partially offset by a favorable settlement of a tax examination in the first quarter of 2017.

Net Income Attributable to Hubbell and Earnings Per Diluted Share

Net income attributable to Hubbell was \$222.7 million in the first nine months of 2017 compared to \$228.6 million in the first nine months of 2016. Excluding Restructuring and Related Costs and the loss on debt extinguishment, adjusted net income attributable to Hubbell was \$242.9 million in the first nine months of 2017 and increased one percent as compared to the first nine months of the prior year. Earnings per diluted share in the first nine months of 2017 decreased one percent as compared to the first nine months of 2016. Adjusted earnings per diluted share in the first nine months of 2017 increased two percent as compared to the first nine months of 2016 and reflects a decline in the average number of diluted shares outstanding of 0.6 million as compared to the same period of the prior year.

Segment Results

ELECTRICAL

<i>(In millions)</i>	Nine Months Ended September 30,	
	2017	2016
Net sales	\$ 1,897.9	\$ 1,858.7
Operating income	\$ 206.6	\$ 213.5
Restructuring and related costs	16.6	16.7
Adjusted operating income	\$ 223.2	\$ 230.2
Operating margin	10.9%	11.5%
Adjusted operating margin	11.8%	12.4%

Net sales in the Electrical segment were \$1.9 billion in the first nine months of 2017 and increased by approximately two percent compared to the first nine months of 2016 due to two percentage points of net sales growth from higher organic volume, including the impact of pricing headwinds, and one percentage point contributed by acquisitions. Headwinds from foreign currency translation were less than one percentage point.

Within the segment, the aggregate net sales of our Commercial and Industrial and Construction and Energy business groups increased by four percentage points, due to three percentage points of organic growth, driven primarily by net sales growth of our harsh and hazardous products serving the energy-related markets as well as our products serving the non-residential construction market, and one percentage point of net sales growth from acquisitions. Net sales of our Lighting business group decreased one percent in the first nine months of 2017 with two percentage points of headwind from pricing, partially offset by one percentage point of volume growth. Within the Lighting business group, net sales of residential lighting products increased by four percent, while net sales of commercial and industrial lighting products declined by three percentage points, primarily due to headwinds on pricing.

Operating income in the Electrical segment for the first nine months of 2017 was \$206.6 million and decreased three percent compared to the same period of 2016. Operating margin in the first nine months of 2017 decreased by 60 basis points to 10.9% as compared to the same period of 2016. Excluding Restructuring and Related Costs, the adjusted operating margin also decreased by 60 basis points to 11.8%. The decrease in the adjusted operating margin is primarily due to price and material cost headwinds and acquisitions. Acquisitions reduced the adjusted operating margin by approximately 50 basis points in the third quarter of 2017. The unfavorable impact of those items was partially offset by greater realized savings from our restructuring and related actions.

POWER

(In millions)	Nine Months Ended September 30,	
	2017	2016
Net sales	\$ 853.2	\$ 792.3
Operating income	\$ 174.5	\$ 156.5
Restructuring and related costs	3.9	2.3
Adjusted operating income	\$ 178.4	\$ 158.8
Operating margin	20.5%	19.8%
Adjusted operating margin	20.9%	20.0%

Net sales in the Power segment in the first nine months of 2017 were \$853.2 million, up approximately eight percent as compared to the first nine months of 2016 primarily due to higher organic volume and the net sales contribution from acquisitions. The increase in organic volume contributed five percentage points driven by growth in the distribution and telecommunications markets including storm-related sales associated with recent hurricanes, and acquisitions contributed three percentage points to net sales growth.

Operating income in the Power segment increased twelve percent to \$174.5 million in the first nine months of 2017. Operating margin in the first nine months of 2017 increased by 70 basis points to 20.5% as compared to the same period of 2016. Excluding Restructuring and Related Costs, the adjusted operating margin increased by 90 basis points to 20.9% in the first nine months of 2017. The increase in the adjusted operating margin is primarily due to gains from productivity initiatives in excess of cost inflation as well as from incremental earnings on higher net sales volume, partially offset by price and material cost headwinds.

Outlook

2017

In 2017, we continue to expect end market growth in the range of two and a half to three percent in the aggregate, including two to three percent growth in the electrical transmission and distribution as well as the industrial market, two to four percent growth in the non-residential and oil and gas markets, and four to five percent growth in the residential market. Our acquisitions are expected to contribute approximately two percent of net sales growth in 2017.

In the first half of 2017, we invested in IoT engineering and research and development resources through the acquisition of iDevices, which adds important capabilities for further enhancing our products, but we expect will be dilutive to our operating margin in 2017.

We expect recent hurricanes will impact our operating income in 2017 by providing a benefit from storm-related sales and headwind from a temporary outage in our manufacturing facility in Vega Baja, Puerto Rico.

We estimate 2017 earnings per diluted share will be within a range of \$5.40 to \$5.50, including approximately \$0.30 of Restructuring and Related Costs and an \$0.11 loss on the early extinguishment of debt. We continue to expect free cash flow (defined as cash flows from operating activities less capital expenditures) equal to net income attributable to Hubbell in 2017.

2018

In 2018, we expect our end markets to grow by approximately two to four percent in aggregate and that the trend toward more consistent growth in our end markets will continue. We expect our operating margin in 2018 will benefit from lower restructuring spend, incremental savings from restructuring and related actions, and the absence of restructuring-driven inefficiencies within our Lighting business group. Our net income is also expected to benefit from lower interest costs resulting from the refinancing of our long-term debt that was due in 2018 and we are targeting a return to double digit growth in diluted earnings per share in 2018.

Financial Condition, Liquidity and Capital Resources

Cash Flow

<i>(In millions)</i>	Nine Months Ended September 30,	
	2017	2016
Net cash provided by (used in):		
Operating activities	\$ 228.6	\$ 269.2
Investing activities	(161.6)	(219.3)
Financing activities	(139.9)	(14.3)
Effect of foreign currency exchange rate changes on cash and cash equivalents	21.7	(14.6)
NET CHANGE IN CASH AND CASH EQUIVALENTS	\$ (51.2)	\$ 21.0

Cash provided by operating activities for the nine months ended September 30, 2017 was \$228.6 million compared to \$269.2 million in the same period in 2016 and decreased primarily due to an increase in inventory during 2017 to meet increased demand, and the timing of other payments.

Cash used for investing activities was \$161.6 million in the nine months ended September 30, 2017 compared to cash used of \$219.3 million during the comparable period in 2016 and primarily reflects decreased cash used for acquisitions.

Cash used by financing activities was \$139.9 million in the nine months ended September 30, 2017 as compared to cash provided of \$14.3 million in the same period of 2016. The increase in cash used for financing activities reflects lower cash provided by long-term borrowings, partially offset by a \$154.2 million decrease in cash used for the repurchase of Common Stock in 2017 and approximately \$91 million of net short-term borrowings in the nine months ended September 30, 2017 as compared to approximately \$48 million of net short-term repayments in the same period of the prior year.

The favorable impact of foreign currency exchange rates on cash was \$21.7 million in the nine months ended September 30, 2017 and is primarily related to strengthening in the British Pound, Canadian Dollar, and Australian Dollar versus the U.S. Dollar in the nine months ended September 30, 2017.

Investments in the Business

Investments in our business include cash outlays for the acquisition of businesses as well as expenditures to support our restructuring and related activities and to maintain the operation of our equipment and facilities.

During the first nine months of 2017, the Company completed four acquisitions with an aggregate purchase price of \$100.3 million, net of cash received. In April 2017, the Company acquired all of the issued and outstanding limited liability company interests in iDevices, LLC ("iDevices") for \$59.2 million. iDevices is a developer with embedded firmware and application development expertise with custom-built Internet of Things ("IoT") Cloud infrastructure. iDevices has been allocated to the Electrical segment. In April 2017, the Company also acquired substantially all of the assets of Advance Engineering Corporation and related companies (collectively "AEC") for \$31.6 million. AEC is a gas components manufacturer that complements the Company's existing business in the natural gas distribution vertical. AEC has been added to the Electrical segment. The Company also completed two acquisitions that have been added to the Power segment in the first quarter of 2017 for \$9.5 million, net of cash received. See also Note 2 — Business Acquisitions and our discussion of the 2017 Outlook in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Beginning in the fourth quarter of 2014 and continuing through the third quarter of 2017 we have initiated certain restructuring and related actions, primarily to align our cost structure with the needs of our business and also in response to conditions in certain of our end markets. As a result of those restructuring and related actions we have exited a total of 26 manufacturing and warehousing facilities.

In connection with our restructuring and related actions we have incurred restructuring costs, which are primarily severance and employee benefits, asset impairments, as well as facility closure, contract termination and certain pension costs that are directly related to restructuring actions. These restructuring costs are predominantly settled in cash from our operating activities and are generally settled within one year, with the exception of asset impairments, which are non-cash. Restructuring costs in 2016 also included a \$12.5 million charge to recognize the estimated liability associated with the anticipated withdrawal from a multi-employer pension plan, which may be settled either in periodic payments over approximately 19 years, or in a lump sum, subject to negotiations expected to occur before the end of 2017.

The table below presents the restructuring costs incurred in the first nine months of 2017, additional expected restructuring costs and the expected completion date (in millions):

	Costs incurred in the nine months ended September 30, 2017		Additional expected costs		Expected completion date
2017 Restructuring Actions	\$	8.4	\$	3.7	2018
2016 Restructuring Actions ^(a)		5.1		3.1	2017
Total	\$	13.5	\$	6.8	

^(a) Additional expected costs does not include any potential future liability, in excess of amounts already recognized in 2016, associated with the anticipated withdrawal from the multi-employer pension plan referred to in the preceding paragraph. Additional information about the estimated withdrawal liability associated with that multi-employer plan is included in Note 10 — Retirement Benefits in the Notes to Consolidated Financial Statements in the Hubbell Incorporated Annual Report on Form 10-K for the year ended December 31, 2016.

In connection with our restructuring and related actions we also incur restructuring-related costs. Restructuring-related costs are costs associated with our business transformation initiatives, including the consolidation of back-office functions and streamlining our processes, and certain other costs and gains associated with restructuring actions. We refer to restructuring costs (which is a GAAP measure) and restructuring-related costs on a combined basis as "Restructuring and Related Costs", which is a non-GAAP measure. Refer to the Results of Operations discussion within this Management's Discussion and Analysis of Financial Condition and Results of Operations, for further detail of the costs associated with our restructuring and related activities and reconciliations of our non-GAAP measures.

During the first nine months of 2017, we invested \$53.2 million for capital expenditures, an increase of \$7.4 million from the comparable period of 2016 and primarily relating to our manufacturing productivity initiatives.

Stock Repurchase Program

At December 31, 2016, we had total remaining share repurchase authorization of \$153.6 million under the repurchase program approved by our Board of Directors in August 2015. In the first six months of 2017, the Company repurchased shares for an aggregate purchase price of \$92.6 million and that repurchase program expires in October, 2017. On October 20, 2017, the Board of Directors approved a new stock repurchase program (the "October 2017 program") that authorized the repurchase of up to \$400 million of Common Stock and expires on October 20, 2020. As of October 25, 2017, the entire \$400 million remains authorized for repurchase under the October 2017 program. Subject to numerous factors, including market conditions and alternative uses of cash, we may conduct discretionary repurchases through open market or privately negotiated transactions, which may include repurchases under plans complying with Rules 10b5-1 and 10b-18 under the Securities Exchange Act of 1934, as amended. See also Item 2 - Issuer Purchases of Equity Securities for additional information.

Debt to Capital

At September 30, 2017 and December 31, 2016, Long-term debt in the Condensed Consolidated Balance Sheets was \$986.7 million and \$990.5 million, respectively, of long-term unsecured, unsubordinated notes, net of unamortized discount and the unamortized balance of capitalized debt issuance costs.

In August 2017, the Company completed a public debt offering of \$300 million of long-term, unsecured, unsubordinated notes maturing in August 2027 and bearing interest at a fixed rate of 3.15% (the "2027 Notes"). Net proceeds from the issuance were \$294.6 million after deducting the discount on the notes and offering expenses paid by the Company. In September 2017, the Company applied the net proceeds from the 2027 Notes to redeem all of its \$300 million of long-term, unsecured, unsubordinated notes maturing in 2018 and bearing interest at a fixed rate of 5.95%. In connection with this redemption, the Company recognized a loss on the early extinguishment of the 2018 Notes of \$6.3 million on an after-tax basis.

At September 30, 2017 principal amounts of the Company's long-term unsecured, unsubordinated notes are \$300 million due in 2022, \$400 million due in 2026, and \$300 million due in 2027.

The Company's long-term unsecured, unsubordinated notes are fixed rate indebtedness, are callable at any time with a make whole premium and are only subject to accelerated payment prior to maturity in the event of a default (including as a result of the Company's failure to meet certain non-financial covenants) under the indenture governing the notes, as modified by the supplemental indentures creating such notes, or upon a change in control event as defined in such indenture. The Company was in compliance with all non-financial covenants as of September 30, 2017.

At September 30, 2017 and December 31, 2016, the Company had \$93.8 million and \$3.2 million, respectively, of short-term debt outstanding.

- Commercial paper borrowings outstanding at September 30, 2017 were \$87.0 million. There were no commercial paper borrowings outstanding at December 31, 2016.
- Short-term debt at September 30, 2017 and December 31, 2016 also includes \$6.8 million and \$3.2 million, respectively of borrowings to support our international operations in China and Brazil.

Net debt, defined as total debt less cash and investments, is a non-GAAP measure that may not be comparable to definitions used by other companies. We consider net debt to be a useful measure of our financial leverage for evaluating the Company's ability to meet its funding needs.

<i>(In millions)</i>	September 30, 2017		December 31, 2016	
Total Debt	\$	1,080.5	\$	993.7
Total Hubbell Shareholders' Equity		1,656.0		1,592.8
TOTAL CAPITAL	\$	2,736.5	\$	2,586.5
Total Debt to Total Capital		39%		38%
Cash and Investments		456.5		505.2
Net Debt	\$	624.0	\$	488.5
Net Debt to Total Capital		23%		19%

Liquidity

We measure liquidity on the basis of our ability to meet short-term and long-term operational funding needs, fund additional investments, including acquisitions, and make dividend payments to shareholders. Significant factors affecting the management of liquidity are cash flows from operating activities, capital expenditures, cash dividend payments, stock repurchases, access to bank lines of credit and our ability to attract long-term capital with satisfactory terms.

In 2017, we have invested in acquisitions and also returned capital to our shareholders through share repurchases and shareholder dividends. These activities were funded primarily from cash flows from operations, with the exception of our April 2017 acquisitions that were funded by issuing commercial paper.

- In the first nine months of 2017, cash used for the acquisition of businesses, net of cash acquired was \$110.3 million, including the settlement of purchase price installments from prior year acquisitions. Further discussion of our acquisitions can be found in Note 2 — Business Acquisitions.
- In the nine months ended September 30, 2017, cash settlements for share repurchases were \$92.6 million. Shareholder dividends paid in the nine months ended September 30, 2017 were \$115.5 million.

We also require cash outlays to fund our operations, our capital expenditures, and an increase in working capital that would be required to accommodate a higher level of business activity for the foreseeable future, as well as our rate of cash dividends, and potential future acquisitions in 2017. In October 2017, the Company's Board of Directors approved an increase in the common stock dividend rate from \$0.70 to \$0.77 per share per quarter. The increased quarterly dividend payment will commence with the December 15, 2017 dividend payment made to shareholders of record on November 30, 2017.

We have contractual obligations for long-term debt, operating leases, purchase obligations, and certain other long-term liabilities that were summarized in a table of Contractual Obligations in our Annual Report on Form 10-K for the year ended December 31, 2016. Since December 31, 2016, there were no material changes to our contractual obligations.

Our sources of funds and available borrowing resources to meet these funding needs are as follows.

- Cash flows from operations and existing cash resources: We continue to target free cash flow (defined as cash flows from operations less capital expenditures) equal to net income in 2017. We also have \$386.4 million of cash and cash equivalents at September 30, 2017, of which approximately three percent was held inside of the United States and the remainder held internationally.
- We have the ability to issue commercial paper for general corporate purposes and our \$750 million revolving credit facility, which expires in December 2020, serves as a backup to our commercial paper program. We maintain investment grade credit ratings from the major U.S. rating agencies.

The Company's revolving credit facility is a five-year credit agreement (the "Credit Agreement") with a syndicate of lenders that provides a \$750 million committed revolving credit facility. Commitments under the Credit Agreement may be increased to an aggregate amount not to exceed \$1.250 billion. The interest rate applicable to borrowing under the Credit Agreement is generally either the adjusted LIBOR plus an applicable margin (determined by reference to a ratings based grid) or the alternate base rate. The single financial covenant in the Credit Agreement, which the Company was in compliance with at September 30, 2017, requires that total debt not exceed 55% of total capitalization as of the last day of each fiscal quarter of the Company. Annual commitment fees to support availability under the credit facility are not material. The Credit Agreement expires in December 2020. Although not the principal source of liquidity, we believe our credit facility is capable of providing significant financing flexibility at reasonable rates of interest. However, in the event of a significant deterioration in the results of our operations or cash flows, leading to deterioration in financial condition, our borrowing costs could increase and/or our ability to borrow could be restricted. We have not entered into any guarantees that could give rise to material unexpected cash requirements. As of September 30, 2017 the credit facility had not been drawn against.

- In addition to our commercial paper program and existing revolving credit facility, we also have the ability to obtain additional financing through the issuance of long-term debt. Considering our current credit rating, historical earnings performance, and financial position, we believe that we would be able to obtain additional long-term debt financing on attractive terms.

Critical Accounting Estimates

A summary of our critical accounting estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2016. We are required to make estimates and judgments in the preparation of our financial statements that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures. We continually review these estimates and their underlying assumptions to ensure they are appropriate for the circumstances. Changes in the estimates and assumptions we use could have a material impact on our financial results. During the first nine months of 2017, there were no material changes in our estimates and critical accounting policies.

Forward-Looking Statements

Some of the information included in this Management's Discussion and Analysis of Financial Condition and Results of Operations, and elsewhere in this Form 10-Q, contain "forward-looking statements" as defined by the Private Securities Litigation Reform Act of 1995. These include statements about our expectations regarding manufacturing efficiency, expected capital resources, expenses, employer contributions, liquidity, financial performance, pension funding and from a multi-employer pension plan in which we participated, and results of operations and are based on our reasonable current expectations. In addition, all statements regarding restructuring plans and expected associated costs and benefits, expected future financial performance, expected outcome of legal proceedings, or improvement in operating results, anticipated changes in tax rates, anticipated market conditions, potential future acquisitions, enhancement of shareholder value, adoption of updated accounting standards and any expected effects of such adoption, and productivity initiatives are forward looking. Forward-looking statements may be identified by the use of words, such as "believe", "expect", "anticipate", "intend", "depend", "should", "plan", "estimated", "predict", "could", "may", "subject to", "continues", "growing", "prospective", "forecast", "projected", "purport", "might", "if", "contemplate", "potential", "pending," "target", "goals", "scheduled", "will likely be", and similar words and phrases. Discussions of strategies, plans or intentions often contain forward-looking statements. Important factors, among others, that could cause our actual results and future actions to differ materially from those described in forward-looking statements include, but are not limited to:

- Changes in demand for our products, market conditions, product quality, or product availability adversely affecting sales levels.
- Changes in markets or competition adversely affecting realization of price increases.
- Failure to achieve projected levels of efficiencies, cost savings and cost reduction measures, including those expected as a result of our lean initiatives, strategic sourcing plans, and restructuring initiatives.
- The expected benefits and the timing of other actions in connection with our Enterprise Resource Planning ("ERP") system.
- Availability and costs of raw materials, purchased components, energy and freight.
- Changes in expected or future levels of operating cash flow, indebtedness and capital spending.
- General economic and business conditions in particular industries, markets or geographic regions, as well as inflationary trends.
- Regulatory issues, changes in tax laws or changes in geographic profit mix affecting tax rates and availability of tax incentives.
- A major disruption in one or more of our manufacturing or distribution facilities or headquarters, including the impact of plant consolidations and relocations.
- Changes in our relationships with, or the financial condition or performance of, key distributors and other customers, agents or business partners which could adversely affect our results of operations.
- Impact of productivity improvements on lead times, quality and delivery of product.
- Anticipated future contributions and assumptions including changes in interest rates and plan assets with respect to pensions.
- Adjustments to product warranty accruals in response to claims incurred, historical experiences and known costs.
- Unexpected costs or charges, certain of which might be outside of our control.
- Changes in strategy, economic conditions or other conditions outside of our control affecting anticipated future global product sourcing levels.
- Ability to carry out future acquisitions and strategic investments in our core businesses as well as the acquisition related costs.
- The ability to effectively implement ERP systems without disrupting operational and financial processes.
- Unanticipated difficulties integrating acquisitions as well as the realization of expected synergies and benefits anticipated when we first enter into a transaction.
- The ability of governments to meet their financial obligations.
- Political unrest in foreign countries.
- Natural disasters.
- Failure of information technology systems or security breaches resulting in unauthorized disclosure of confidential information.
- Future repurchases of common stock under our common stock repurchase program.
- Changes in accounting principles, interpretations, or estimates.
- The outcome of environmental, legal and tax contingencies or costs compared to amounts provided for such contingencies.
- Adverse changes in foreign currency exchange rates and the potential use of hedging instruments to hedge the exposure to fluctuating rates of foreign currency exchange on inventory purchases.
- Other factors described in our Securities and Exchange Commission filings, including the "Business", "Risk Factors" and "Quantitative and Qualitative Disclosures about Market Risk" sections in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Any such forward-looking statements are not guarantees of future performances and actual results, developments and business decisions may differ from those contemplated by such forward-looking statements. The Company disclaims any duty to update any forward-looking statement, all of which are expressly qualified by the foregoing, other than as required by law.

ITEM 3 **Quantitative and Qualitative Disclosures About Market Risk**

In the operation of its business, the Company has exposures to fluctuating foreign currency exchange rates, availability of purchased finished goods and raw materials, changes in material prices, foreign sourcing issues, and changes in interest rates. There have been no significant changes in our exposure to these market risks during the first nine months of 2017. For a complete discussion of the Company's exposure to market risk, refer to Item 7A, "Quantitative and Qualitative Disclosures about Market Risk", contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 4 **Controls and Procedures**

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed under the Securities Exchange Act of 1934, as amended, the ("Exchange Act") is recorded, processed, summarized and reported within the time periods specified and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Our management carried out an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as defined in Exchange Act Rules 13a-15(e) and 15d-15(e), as of the end of the period covered by this report on Form 10-Q. Based upon that evaluation, each of the Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2017, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's most recently completed quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1A Risk Factors

There have been no material changes in the Company's risk factors from those disclosed in the Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

On August 23, 2015, the Board of Directors authorized a common stock repurchase program in the amount of \$250 million (the "August 2015 program") and as of December 31, 2016, we had \$153.6 million of remaining share authorization under the repurchase program. In the first six months of 2017, the Company repurchased shares for an aggregate purchase price of \$92.6 million, and the August 2015 program expires in October, 2017. On October 20, 2017, the Board of Directors approved a new stock repurchase program (the "October 2017 program") that authorized the repurchase of up to \$400 million of common stock and expires on October 20, 2020. As of October 25, 2017, the entire \$400 million remains authorized for repurchases under the October 2017 program. Subject to numerous factors, including market conditions and alternative uses of cash, we may conduct discretionary repurchases through open market or privately negotiated transactions, which may include repurchases under plans complying with Rules 10b5-1 and 10b-18 under the Securities Exchange Act of 1934, as amended.

I, David G. Nord, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Hubbell Incorporated (the "registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
